## **DETAILED ACTION**

### ***Notice to Applicant***

1. This communication is in response to Amendment filed 14 July 2009. Claims 1-8, 12, 13, 18-21, 32-34, 39 and 40 are pending. Claims 1, 6, 8, 18-21, 32 and 33 have been amended.

### ***Oath/Declaration***

2. Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth: signature from all inventors needs to be present on Declaration. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.

### ***Information Disclosure Statement***

3. Information Disclosure Statement filed 4/4/03 has been acknowledged and entered.

***Allowable Subject Matter***

4. Claims 1-8, 12, 13, 18-21, 32-34, 39 and 40 (renumbered 1–19) are allowed.

5. The following is an examiner's statement of reasons for allowance:

(A) Claims 1, 8, 18, 32, 33, 39, and 40 (renumbered 1, 8, 11, 15, 16, 18 and 19) are directed towards an internet-based method for a paid service to maintain connection of a remote implantable medical device configured patient to a database network and for medical device data exchange and processing.

The closest prior art of record, Brown (5,997,476), and Bahl (6,834,341) teach a networked system for interactive communication and remote monitoring of individuals and authentication methods and systems for accessing networks and the Internet.

However, the closest prior art of record does not teach or fairly suggest continuous and real-time monitoring of continuously sensed physiologic information from a patient's medical device and determining a revenue based upon a user's access to the sensed physiologic information from a patient's medical device retrieved from a networked computing system.

Dependent claims 2-7, 12-13, 19-21, and 34 (renumbered 2-7, 9-10, 12-14, and 17) incorporate the allowable subject matter of the respective independent claims through dependency and are also allowable for the same reasons.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
